

WHOM will you vote for?

What both candidates don't want you to know

McCain and Obama are bought and paid for. The ultimate objectives either would carry out are the same. Although each believes in taking a somewhat different path, both routes lead toward the identical destination. It's called the **New World Order**. George Bush, Sr. talked about it... so did Bill Clinton. Henry Kissinger is obsessed with it. McCain and Obama fully support it. If you don't know what the New World Order is, you need to find out now. Why? Because if we as a nation don't stand against it immediately, our way of life will soon be destroyed.

You've been purposely mislead and lied to

It's no secret that our country is in deep financial trouble. Our national debt has grown to over 9 trillion dollars. The Federal Reserve keeps printing money and in 2006, they stopped reporting to the American people how much they are dumping into circulation.

What is the Federal Reserve anyway? We've been mislead to believe it's a government agency when it is not! Rather, the Fed is a private corporation, run and controlled by a small group of powerful international bankers. These bankers also control nearly every other central bank in the world, as well as the IMF and the World Bank. When our government needs money, the Federal Reserve simply prints more, gives it to the government and charges them interest. This is where the national debt comes from. Your income tax primarily goes to pay off that interest. Thus, our tax dollars travel right into the hands of the international bankers who control the Federal Reserve. But our income taxes are not enough. So, the government continually borrows more money from the Federal Reserve and the Fed simply prints more. As a result, we get an ever-increasing national debt and spiralling inflation.

Who is the most powerful person in the US and, perhaps, the world?

It's not George Bush or Dick Cheney. It's David Rockefeller. He and his "Elite Mafia" friends control the IMF, The World Bank, The Federal Reserve, OPEC and virtually every central bank in the world.

Below is a quote from Mr. Rockefeller about the media's silence on the plans of the "super elite".

"We are grateful to the Washington Post, the New York Times, Time Magazine and other great publications whose directors have attended our meetings and respected their promises of discretion for almost forty years. It would have been impossible for us to develop our plan

for the world if we had been subjected to the light of publicity during those years. But now the world is more sophisticated and prepared to march towards a world government. The supra-national sovereignty of an intellectual elite and world bankers is surely preferable to the national auto-determination practiced in past centuries."

David Rockefeller
1991 Bilderberger meeting
Baden, Germany

In 1913, when the Federal Reserve Act was snuck through Congress through the chicanery of John D. Rockefeller and J.P. Morgan, there was virtually no inflation and no national debt. Over the past 95 years, the Federal Reserve bankers have made *trillions* in profits. They've used much of that money to buy a significant chunk of corporate American, including the mainstream news media. By controlling the news media, they are able to keep their actions unnoticed. These bankers have also gotten our nation involved in wars because conflicts increase government spending. Thus, they make enormous profits. Recently, these elitists pushed the housing market toward adjustable mortgages, and interest only and negative amortization loans. These have led to over one million foreclosures and counting. Most of those who have purchased homes in the last decade are working harder than ever just to cover their monthly payments on their over-inflated mortgages. This is what these international bankers want... keeping us so busy just trying to survive. They've convinced us to spend what little free time we have watching sports, meaningless television shows and news programs overloaded with propaganda and lies that we're all too tired to question. Now they've brought us "the bailout" (Emergency Economic Stabilization Act). This catastrophe lets all the criminal bankers off the hook and enhances the ability of the elite to defy the Constitution by granting martial law powers to the executive branch of our government.

Those who control the Federal Reserve are multi-billionaires. But money isn't enough for them. They want more power and total control over all of us. Thus, these super elites are currently taking pleasure in collapsing our economy, eroding our constitutional freedoms and destroying our sovereignty as a nation. This is part of their agenda that will lead to the New World Order.

Thomas Jefferson said, *"If the America people ever allow private banks to control the issuance of their currencies, first by inflation and then by deflation, the banks and corporations that will grow up around them will deprive the people of all their prosperity until their children will wake up homeless on the continent their fathers conquered."* Our current situation is proof he was right.

Our president and the leaders of congress are told what to do. That's the only way they can get elected and reelected. Those who are most willing to play their game are usually the ones the elite give the most support to. So, the idea that we still have a democratic republic is a lie. The same people will continue to control the direction of this nation regardless of whether McCain or Obama is elected. Does that mean you shouldn't vote? Not at all. Why not take a look at the Libertarian, Constitution and Green Party candidates? Evaluate what they stand for and choose one.

Thomas Jefferson would probably role over in his grave

if he saw his name on a US currency that said "Federal Reserve Note", printed by a private bank and backed by nothing-, rather than a US Government issued bill redeemable in gold or silver.

What should you do?

1. Be open minded. Be willing to live with the truth no matter what that may be.
2. Do your research. Search Google and YouTube. You'll find numerous links. Some are credible and others aren't. We have provided you with several search terms, as well as a host of links we find reliable.
3. Draw your own unbiased conclusions. Again live with the truth.
4. If you find what you've researched isn't true, throw this away and forget about it. On the other hand, if you consider what you see and hear is valid, send this flyer to everyone you know.

How to defeat "The Elitists"

It is all about spreading the truth. If the American people understand what is occurring and refuse to allow these bankers to continue to control our lives, we can render them powerless. With enough people, we can demand that our elected officials support legislation to rid us from the grips of the Federal Reserve and other suppressive agencies, such as the Internal Revenue Service. Elected officials will take the right action if they receive sufficient pressure from their constituents.

If we fail to persuade enough American people to demand action, our republic is destined to fail. The elitists already have most of their plan implemented. It may only be a matter of months before we see the collapse of the dollar and our economy, and erasure of the freedoms we cherish.

The good news is that there are hundreds of thousands of Americans who are aware of the plans of these criminals bankers. Many are already carrying out their share to spread the word to help cause the elitists' demise. If you find what we expound is true, please join us in our efforts to reestablish our republic and make the future bright for generations to come.
